

G4 Bare Bow "The Hammers" Kit G04-BW-03

- Bare Bow "The Hammers" kit for GQ, GT and G2 risers
- Also fits the Ghost riser
- Special design for fine adjustment of balance
- Symmetric mount, can be assembled on front or back of the riser
- Up to 3 kits can be used for 25" risers and up to 2 kits for 23" risers
- Stainless Steel or Aluminum Silver anodized parts
- 1 full kit is 200 g for aluminum and 600 g for steel
- Can be used in combination with G05-DK2 kit to allow different sides mounting positions or to use 1 Hammer only
- Supplied with special locking kit and Allen wrenches

Stainless Steel

Aluminium

**Can pass inside the
12.2 cm BB ring**

**Stainless Steel
on G2 riser**

**Asymmetric mount
by G05-DK2 kit**

Locking the Hammers to risers

The Hammers can be locked to risers by using the center M6 screw, only.
In case of unstable position, use of the special locking kit as shown is strongly suggested.
Use of removable thread locker is suggested on all threads after finding proper position of all parts.

Warning!

The use of the locking kit parts may scratch surface of your riser!
