

## Compact pneumatic press to apply eyelets with foot pedal:

- ▶ In a single action makes the hole whilst simultaneously setting the eyelet.
- ▶ Ideal for vinyl banners and other plastic material (corrugated PP).
- ▶ Safety guard to cover setting area.
- ▶ Possible to work with three eyelet sizes Ø8mm, Ø12mm & Ø16mm (extra tooling required).
- ▶ Not recommended for textiles, as it might create wrinkles.
- ▶ Constant eyelet setting quality all day long, with hand presses eyelet closing depends on operator fatigue.

**Speed Queen** with table
