Templates are full size, are not reversed, and do not include seam allowance. Be sure "do not scale" button is selected during printing.

UPPER STOCKING TEMPLATE

Materials for One Stocking

<i>One</i> of: 7892-66, 7892-77, 7895-38 OR 7895-44	$\frac{5}{8}$ yard
7893-88	Red Diamonds
	(includes hanging loop)

All regular sewing and rotary cutting supplies.
All supplies required for your preferred method of appliqué.

Cutting Instructions for the Stocking

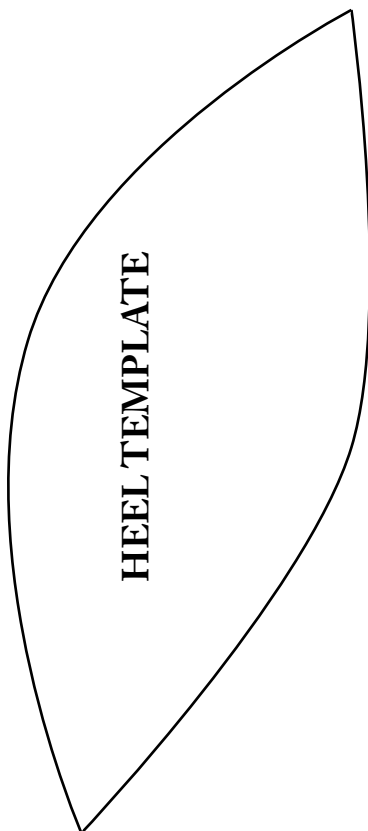

1. Make patterns for the stocking, heel, and toe. Please note that the stocking pattern is in three sections which must be combined. The patterns are full size, are not reversed and do not include seam allowances.
2. Fold the main stocking fabric, wrong sides together, matching selvage edges. From the folded fabric, cut (2) sets of stocking pieces, one set for the outer stocking and one set for the lining. Keep the cut pieces in pairs.
3. From the red diamonds fabric, cut (1) $6\frac{1}{2}$ " x 42" strip. Recut this strip into (1) $6\frac{1}{2}$ " x $11\frac{1}{2}$ " piece for the cuff and (1) 2" x $4\frac{1}{2}$ " piece for the hanging loop.
4. Fold the unused portion of the $6\frac{1}{2}$ " red diamonds strip wrong sides together. From this folded strip, cut (1) set of stocking toe units and (1) set of stocking heel units.

Sewing Instructions for the Stocking

All seams are sewn using 1/4" seam allowance with pieces held right sides together and raw edges even.

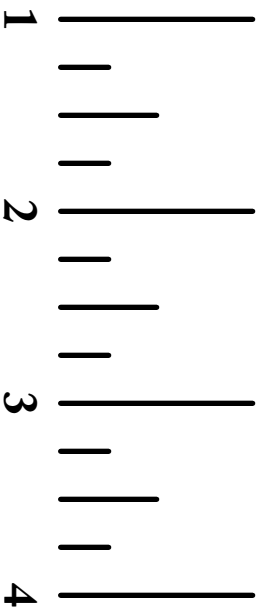

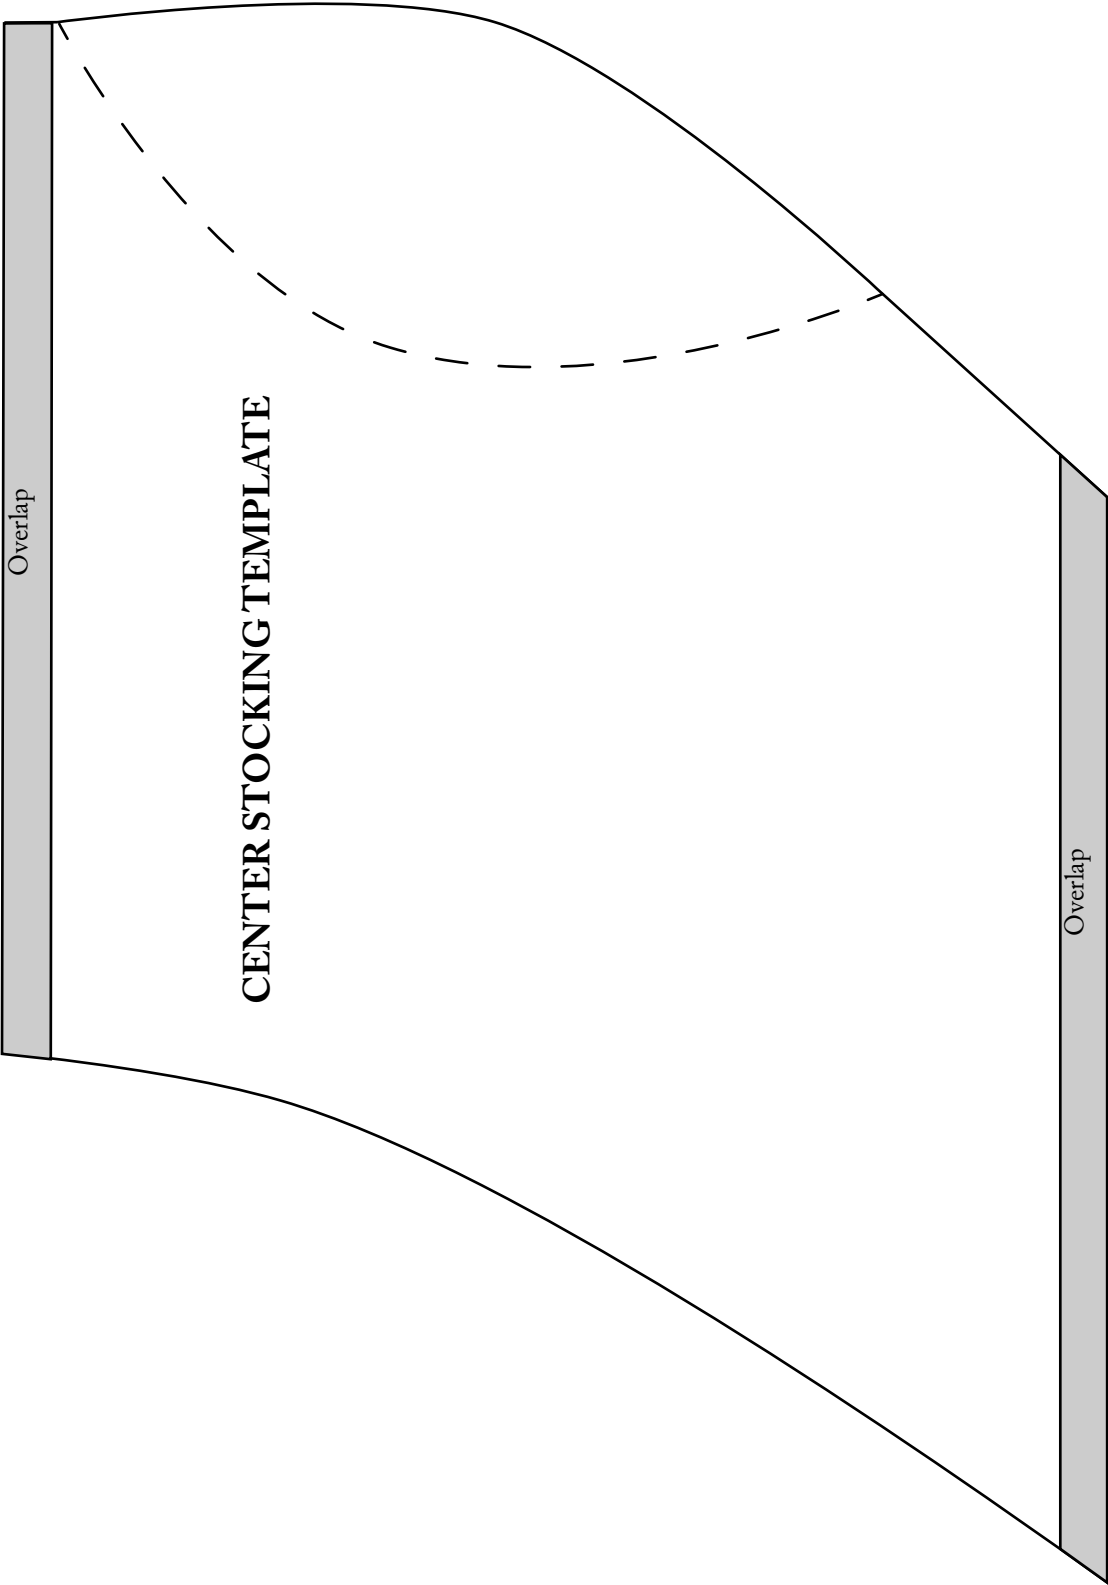

1. Choose one set of stocking pieces cut from the main fabric to be the lining. Right sides together, stitch the two pieces together leaving the entire top edge open and leaving a 3-4" long opening along the back edge for turning. Clip the curves. Leave the unit right sides together to complete the stocking lining.
2. Using the method of your choice, appliqué red heel and toe motifs to each of the (2) remaining stocking pieces. Right sides together, stitch the two stocking pieces together, leaving the entire top edge open. Clip the curves and turn the unit right sides out to complete the main stocking unit.
3. Fold the $6\frac{1}{2}$ " x $11\frac{1}{2}$ " red strip in half, right sides together. Stitch the short ends together to make a $6\frac{1}{2}$ " wide loop. Turn the unit right sides out. Fold the unit in half lengthwise, raw edges even, to make a $3\frac{1}{4}$ " double sided loop. Press to make a crisp edge.
4. Place the main stocking unit inside the cuff with the right side of the stocking unit facing out and all raw edges even. Pin or baste in place.
5. Turn $\frac{1}{2}$ " to the wrong side along each long edge of the 2" x $4\frac{1}{2}$ " red diamonds piece and press. Press so that the raw edges meet in the middle on the wrong side of the red piece. Fold the unit in half lengthwise, wrong sides together, to make a unit $\frac{1}{2}$ " wide x $4\frac{1}{2}$ " long. Press the unit. Stitch close to the edges along each long side of the hanging loop with matching thread.
6. Fold the hanging loop in half crosswise, raw edges even. Pin the loop to the back edge of the stocking unit from step 4, matching the raw edges of the loop with the raw edges of the cuff and stocking.
7. Place the unit from step 6 inside the lining unit from step 1 so that the right sides of the stocking unit and the lining are facing each other. Pin the units together all the way around the upper edge, raw edges even. Stitch all the way around the upper edge, stitching through all thicknesses using $\frac{1}{4}$ " seam allowance.
8. Pull the unit through the hole left in the back side of the lining so the right sides of the main stocking and lining are both facing out. Slip stitch the opening closed. To complete the stocking, push the lining down into the main stocking unit.
