

Music+IR LED Controller For LED Strip Light

Our Newest LED Controller, combines the Music&IR functions.

3 port output design could connect many RGB LED Strip in one controller

Features:

Applications: Indoor accent lighting/local lighting

LED Strip Light/RGB Spotlight

Input voltage: 12VDC/5VDC

Max. Current output: 5A

Max Power output: 60W

Estimated lifespan: 30,000 hours

Optimized Thermal Management: Body temperature < 40 degree

Net Weight: 130g

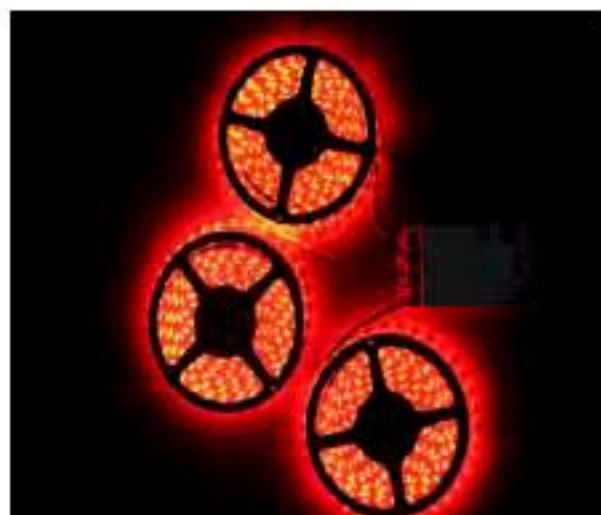

Benefits

Simple to install

Reliable: European Quality

Enhances lamp life

Wide range for all applications
