WHEELCHAIR & OCCUPANT RESTRAINT SYSTEM

*Safe, fast and
easy restraint of
wheelchair and
occupant*

Handi Secure provides you with everything you need, when transporting wheelchair passengers. Well, even more.

As Handi Secure is tested with a wheelchair load of striking 100 kg, where the ISO and the SAE standards only call for 85 kg, the Handi Secure is among the absolute strongest WTORS in the market today.

WHEELCHAIR & OCCUPANT RESTRAINT SYSTEM

Handi Secure™ - WTORS

Handi Secure™ provides you with everything you need, when transporting wheelchair passengers.

As Handi Secure™ is tested with a wheelchair load of striking 100 kg, where the ISO and the SAE standards only call for 85 kg, the Handi Secure is among the absolute strongest WTORS in the market today.

Safe, fast and easy restraint

Handi Secure™ gives you a reliable solution for fastening wheelchairs in a vehicle.

When using Handi Secure™ you can enjoy the flexibility on an everyday basis. It is easy to use, and you can place the wheelchair exactly where you want it.

The retractors are fully automated, and the steel housing makes them very durable. Handi Secure is crash tested with Handi Floor™ and surpasses ISO 10542 at 100 kg (normally 85 kg).
