Elipse Half Mask with Integra Goggle

The mask is available in three variants, depending upon the filters with which it is intended to be used.

The mask is designed to be used with two filters only.

In each case, masks are supplied with filters. Replacement filters are available. The filters are covered by separate certification.

All variants incorporate a single exhalation valve.

The facemask variants include specific design elements and are designed for use with specific filters only.

P3 variant

This facemask variant is designed for use with the Elipse particle filters only.

It incorporates two inhalation valves.

REV1 variant

This facemask variant is designed for use with certain Elipse gas/combined filters.

It does not incorporate inhalation valves, as they are integral to the filters.

REV2 variant

This facemask variant is designed for use with certain Elipse gas/combined filters.

It does not incorporate inhalation valves, as they are integral to the filters.
