

## Warning and instructions

### Dummy

#### Warnings, safety instructions

Our dummies are specially designed for hunting dogs. Dummies are not toys. Dummies are not intended for tugging or biting. The basic requirement for training is the so-called **soft mouth**, which prevents the wild animals or the dummies from being damaged by a solid bite, as a result they are unusable. Choose wisely right size of the dummy for your dog's mouth, too small size could be dangerous. Dummy is used for training purposes, competitions and working tests.

Never leave your dog with the dummy unattended, to avoid damage to the product, possible damage and possible injury to you and your dog. Regularly check the condition of the product, if it is not damaged. In case of any damage, please do not use the product! During lifetime of the product, there can occur some change of colour shade, which do not have affect on it's use. We do not recommend exposing the product to direct sunlight, which leads to changes in the color shade and properties of the material.

**The dummy is suitable for water training except:** all full fur dummies and dummies with fur, 3-part dummies, Trainer dummy 1kg, 1.5kg, School-Dummy 700g, Rabbit-Dog Dummy, Snack dummy

#### Method of cleaning and maintenance:

- If the dummies are wet, let them dry on air, not in direct sunlight.
- Use a brush and warmish water for cleaning except all fur dummies and dummies with fur
- Do not wash, do not chemically clean, do not iron and do not dry in a dryer
- Allow to dry free in the air, not in direct sunlight
- Do not use detergents or chemicals

#### Storage:

- Store in a dry, dark place at room temperature away from intense UV light, away from direct sunlight.
- Keep them away from all chemicals.

## Dummy vests and bags

### Warning, safety instructions

Dummy vests and bags are used to store training aids, wild animals and other accessories. They are designed for training, hunting, leisure, exams and working tests. They are made of durable waterproof nylon material or waxed cotton. However, sewing is not waterproof, so moisture may penetrate around sewing. Choose the right size and type that suits you and your purpose.

Check regularly condition of the product, if the product is not damaged. In case of any damage, please do not use the product! You will prevent so possible damage and possible injury to you and your dog. During lifetime of the product, there can occur some change of colour shade, which do not have affect on it's use. We do not recommend exposing the product to direct sunlight, which leads to changes in the color shade and properties of the material.

### Method of cleaning nylon vests and bags:

- If the vest or bag is wet, allow it to dry freely in the air, not in direct sunlight
- Gently clean with brush and a sponge soaked in cool water
- Do not wash, do not chemically clean, do not iron and do not dry in a tumble dryer
- Do not use detergents or chemicals

### Method of cleaning waxed vests and bags:

- If the vest or bag is wet, allow it to dry freely in the air, not in direct sunlight.
- brush off any dirt or grit
- sponge down with cold water
- do not use soap, detergents
- do not machine wash, do not dry in a tumble dryer, do not iron
- how often you re-wax your jacket depends on how often the jacket is worn, for regular use, it is recommended re-waxing at least once per year. Tins of wax can be purchased from ourselves.

### How to re-proof your wax product:

1. You require a pan of hot water and soft cloth or sponge.
2. Choose a warm room or outside on a hot day.
3. Stand the tin in hot water to soften dressing.
4. Work the dressing well into the garment using the cloth or sponge.
5. Pay attention to seams, creases and dry patches.
6. Rub in well, don't just paint on.
7. Do not use excess dressing.
8. For a 'factory' finish, blow evenly with a hairdryer.
9. Hang the garment overnight in a warm place.

**Storage:**

- Store in a dry, dark place at room temperature away from intense UV light, away from direct sunlight.
- Keep them away from all chemicals.
