

# Tales of the Arabian Nights Remake – FAQ

## **Q: How many *Tales of the Arabian Nights* Remakes will be produced?**

**A:**

The Legacy Edition will be produced in a maximum quantity of 500 units for this initial production run. While we do not rule out the possibility of future runs, there are currently no additional productions planned or scheduled at this time.

The 30th Anniversary Edition, on the other hand, will be strictly limited to only 399 units worldwide, making it an exceptionally exclusive collector's release.

---

## **Q: What are the main differences between the Legacy Edition and the Anniversary Edition?**

**A:**

The biggest difference between the two models is the exclusive artwork package created by the incredible artist Brian Allen and his studio, Flyland Designs. Brian poured his passion and talent into creating stunning new artwork that celebrates the spirit and magic of *Tales of the Arabian Nights*.

Another major difference is exclusivity. The Anniversary Edition is limited to only 399 machines worldwide, making it a truly collectible piece for dedicated pinball enthusiasts.

Both editions include all of the new features and modern enhancements we have developed for the game, including:

- Enhanced display animations
- RGB LED light shows
- Special colored metal armor package
- GameSync integrated lighting system
- Improved audio and visual presentation
- And much more

Our goal was to ensure that every customer, regardless of edition, receives the best gameplay experience possible.

---

## **Q: What warranty is included with the game?**

**A:**

The warranty covers electronics, non-wear mechanical components, and other non-consumable parts.

### **Legacy Edition Warranty**

- 12 Months Electronics Coverage

- 6 Months Parts Coverage

## **Anniversary Edition Warranty**

- 24 Months Electronics Coverage
- 12 Months Parts Coverage

In addition, we have expanded and strengthened our support team with experienced professionals ready to assist customers, answer questions, and provide technical support whenever needed.

---

## **Q: Where are these games manufactured?**

**A:**

All games are proudly manufactured in Italy and imported through authorized Pedretti Gaming distributors in each country and region.

---

## **Q: Are the electronics original-style electronics?**

**A:**

No. *Tales of the Arabian Nights Remake* uses the FAST Pinball platform system, a modern and highly reliable electronics architecture used by several established pinball companies and professional developers worldwide.

The FAST platform provides modern reliability, easier serviceability, improved diagnostics, and long-term support while preserving the authentic gameplay experience of the original machine.

---

## **Q: What has changed compared to your previous games?**

**A:**

We carefully listened to feedback from both customers and distribution partners.

One of the biggest improvements is our new software, animation, and display development team — a group highly respected within the remake and modern pinball industry for their exceptional work and experience.

Another important decision was reducing the differences between editions, allowing all customers to enjoy nearly all of the premium gameplay features and technological improvements regardless of which version they choose.

Our focus with *Tales of the Arabian Nights* has been simple: deliver the highest-quality remake experience possible.

---

## **Q: What about replacement parts and out-of-warranty service?**

**A:**

Both Planetary Pinball Supply (US & International) and Pedretti Gaming (Italy) will stock replacement parts for this game.

Many compatible parts are already available today through the official Planetary Pinball online store, and additional parts will continue to be added over time to ensure long-term support and availability.

---

## **Q: What is the “1.5 Enhanced Game Code”?**

**A:**

The 1.5 Enhanced Game Code preserves the original gameplay experience that players know and love, while adding modern enhancements such as:

- Colorized display animations by artist Jay Powell
- Modern RGB lighting integration and updated light shows
- Quality-of-life improvements and known bug fixes

Our philosophy was never to replace the soul of the original game, but to enhance and celebrate it using modern technology.

---

## **Q: Is the original game code preserved?**

**A:**

Yes. The original gameplay experience remains intact and faithful to the original machine.

No gameplay rules have been altered beyond stability improvements and known bug fixes. Players can enjoy the same classic experience that made *Tales of the Arabian Nights* one of the most beloved pinball machines ever created.

---

## **Q: How do I know my deposit is safe?**

**A:**

We always recommend purchasing through reputable and authorized distributors that clearly explain their deposit and refund policies.

To further protect our customers, we require all official distributors to forward customer deposits directly to us in order to secure and confirm game allocations.

If you would like to verify whether your distributor has forwarded your deposit and officially placed your game order with us, you may contact our administration department directly at: [info@pedrettigaming.it](mailto:info@pedrettigaming.it)

The safest option is always to work with established companies that provide transparent communication, professional service, and strong customer protection policies.

Pedretti Gaming works with trusted distributors throughout the United States and internationally. We strongly encourage customers to be cautious of:

- Unrealistic pricing
- Unauthorized sellers
- Claims of immediate availability during early development phases

For your protection, always verify authorized distributors through our official channels or contact us directly if you have any doubts.

Buy safely. Buy from trusted partners.

---

## Q: Who is Pedretti Gaming?

A:

Pedretti Gaming is a manufacturing company based in Northern Italy with roots dating back to 1976, originally producing arcade games and jukeboxes.

Over the last decade, the company has collaborated with some of the most important names in the pinball industry, developing components, assemblies, and licensed remake projects.

Pedretti Gaming previously produced the highly successful *FunHouse Remake* and continues its commitment to premium remake development with *Tales of the Arabian Nights Remake*.

Assembly and production are managed through [Euro Pinball Corp.](#) and official information can be found at [Pinball Remakes](#).

Pedretti Gaming operates under the Williams and Bally game license of [Planetary Pinball Supply](#), the official license holder for Williams and Bally pinball parts, merchandise, and games.

---

## Q: Who is Planetary Pinball Supply?

A:

[Planetary Pinball Supply \(PPS\)](#) is the exclusive license holder for Williams/Bally pinball games, parts, and merchandise.

PPS manufactures, distributes, and supplies genuine WMS/Bally parts and works closely with leading pinball companies to create high-quality remakes and enhancement products for classic machines.

Founded in 2010 and headquartered in Sparks/Reno, Nevada, PPS is one of the most respected companies in the modern pinball industry.
