

# Reimagining the future of coffee

IBERITAL

# Tandem

Friendly -  
All around

The sleek and versatile companion  
that fits seamlessly into any  
environment.

# Tandem means teamwork

We've explored insights around the world to bring with the best solutions to your everyday barista life. Starting from the edgy knob for better precision and the perfect shape of the steam pipes to our removable cup basket. Every detail has been thought to make Tandem the best companion to face everyday needs.

## The only basket you will ever want

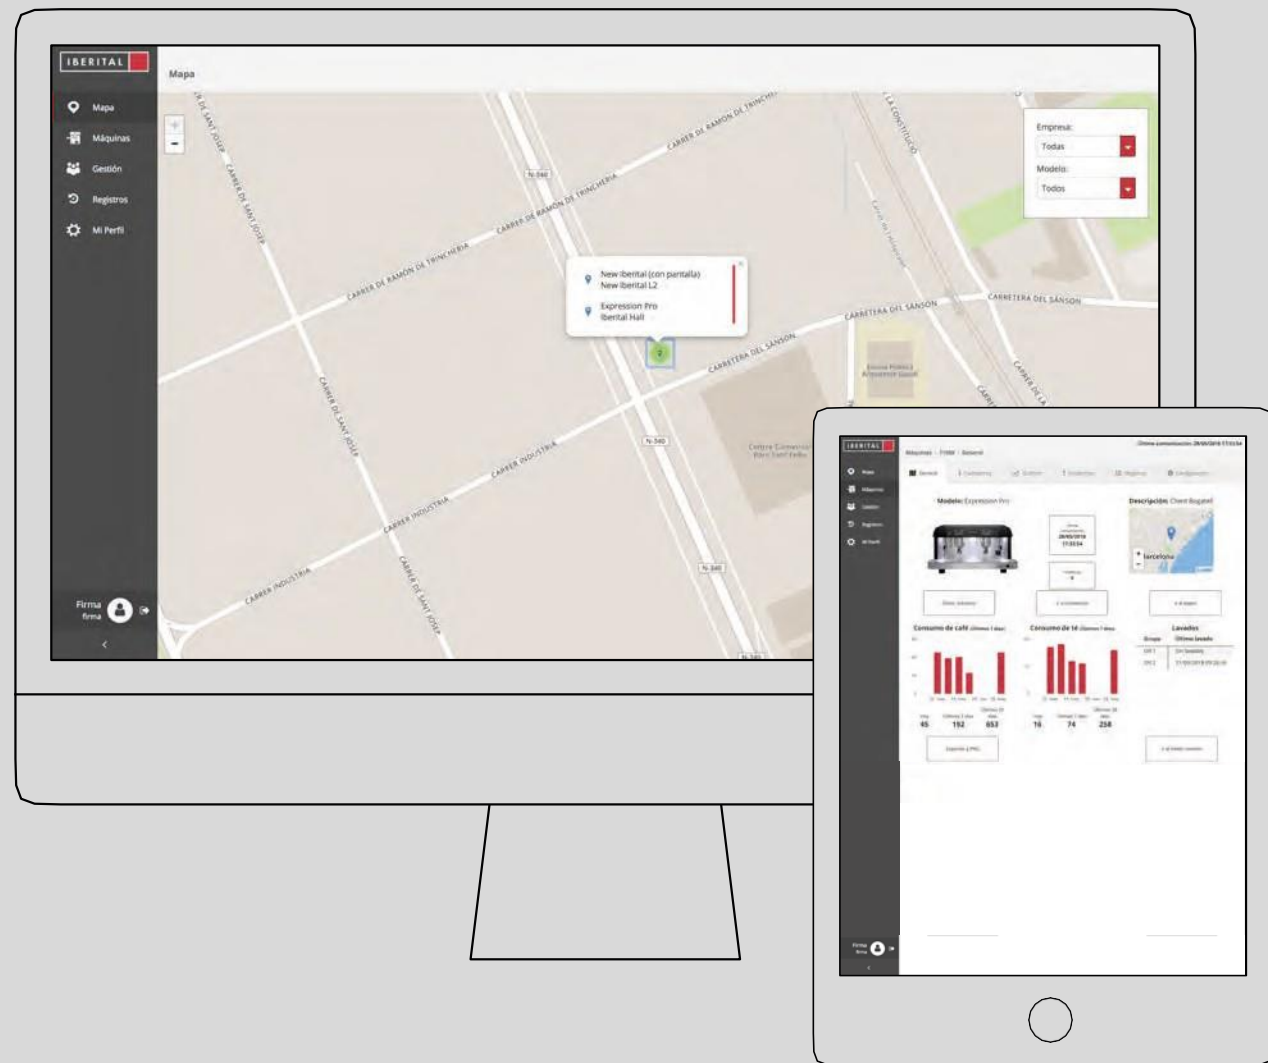

Tandem's design began with you and your habits in mind. A simple detail conceived to achieve superior handling and control of your brewing tools. Our rational, nordic-inspired and removable basket will help you move cups, dishes and jars around. Sometimes, the most useful features are the simple ones.

# The partner you can rely on

Tandem provides the finest temperature  
stability to help you brew the freshest cups.  
Its new steam wand is magical with Latte art.

# Complement your Tandem with IB Connect

Leverage the power of data by integrating IB Connect and have greater control on the use, performance, and needs of your Tandem. Forget clumsy displays; connect to the machine from your computer or smartphone.

# IBERITAL Tandem
