FOREWORD

Thank you for choosing ONWA marine radar antenna. The radar antenna is designed and constructed to meet the rigorous demands of the marine environment. However, no machine can perform its intended function unless properly installed and maintained. Please carefully read and follow the recommended procedures for installation, operation and maintenance. While this unit can be installed by the purchaser, any purchaser who has doubts about his or her technical abilities may wish to have the unit installed by an ONWA representative or other qualified technician.

We want to Hear from you!

Your suggestions and comments are highly important to us, to further develop our equipment let us know if we are achieving our purpose. Please send us your feedback at sales@onwamarine.com.

Again, Thank you for purchasing an Onwa Equipment.

Features

The main features of the ONWA marine radar antenna:

- Traditional ONWA quality and reliability in a compact, lightweight and low-cost radar antenna.
- Digital radar target technology.
- Share the same protocol between all ONWA magnetron pulse radar antennas.
- Can be connected to PC directly or through home router.
- Built-in excellent sea and rain clutter algorithm.
- Fully digital signal processing.
- High performance microwave front end.
