Jollein

for all **firsts**

For over five decades, Jollein has been a companion throughout the significant milestones of a little one's journey. Jollein has been committed to delivering top-quality baby products at an affordable price because we understand the value and importance of this phase.

At Jollein, we are not just a brand; we are a part of your journey right from the very start. We want you as a parent, caregiver, or loved one to celebrate each milestone with joy and confidence. Whether it's that first playtime with our wooden toys, the initial sleep in their own crib with our softest sleeping bags or the first time going outside with our footmuffs, Jollein stands by your side.

At Jollein, we are here "for all firsts" because we believe these moments last a lifetime in your memories.

Coming home to Jollein

Where every journey begins

For me, Jollein feels like coming home. I have been happily working here for seven years now. As a social media marketer, I interact daily with (expecting) mothers, addressing their uncertainties and questions. It's heartwarming to see how social media has created a supportive community for moms to share their experiences. Being a mother myself, even though my kids are no longer little, I deeply understand the struggles. It's incredibly fulfilling to alleviate concerns through our social platforms.

The most common questions revolve around sleep and sleeping bags. For over 50 years, Jollein has been the go-to shop for these essential sleep aids. Throughout the years, we have continually refined our designs and expanded our range. Whether a mother is looking for a sleeping bag for her newborn, her toddler, or something suitable from winter to summer and everything in between, Jollein has the perfect sleeping bag! I love the idea that Jollein is there for all the first moments. Our slogan, "For all firsts," is so fitting. Parents use our cozy footmuffs for their baby's first journey home from the hospital, our ultra-soft muslin cloths for their baby's first bath, and our tableware and bibs for their baby's first solid meal. And when babies begin to explore the world around them, they do so on our comfortable playmats.

**In every first, there's
a memory to cherish.
At Jollein, we are
honored to be part of
your journey.**

I am incredibly proud of our new 2024/2025 collection, which you can explore in this catalog. We have added a variety of new items and expanded our bestsellers. As always, our collection features items designed according to the latest trends, with comfort and safety remaining our top priorities. My personal favorite print this year is 'Nostalgic Ride.' The beginning

Jollein's journey began in 1973, when Wim Smits Senior's baby goods textile company went bankrupt. Undeterred, he purchased some fabric, revamped an old bus, and kickstarted the family business by selling his wares to acquaintances.

The 70s

By the '70s, Jollein had evolved into a moving showroom, giving customers the chance to buy their favorite items on the spot.

1970's

In the 1970s, Jollein reached a milestone when Wim Sr. noticed German mothers buying sleeping bags for their babies. Seeing potential, he made minor adjustments to create the ideal baby sleeping bag, which was born just two days later.

Early 80s

Things really picked up in the '80s when production was in full swing, and the Smits family had to find their own storage space since their home was bursting at the seams. But that didn't stop them from making their customers happy!

Mid 80s

The production was running at full speed and the customers were happy with the beautiful products. Our house was overflowing and we had to look for our own storage. It now felt like a real business!

The 90s

In the '90s, Wim Smits Sr.'s health began to decline, but his son and daughter-in-law, Marrit, took the wheel and kept the family tradition alive.

The years 2000

In the year 2000, an offer came in from Pakistan that Jollein just couldn't resist. The deal allowed them to purchase high-quality fabrics at an even better price, which meant they could expand their business even more.

Years 2010

Jollein grew fast as a brand and the products were sold more and more. Jollein became more than just a logo on a plastic bag: the brand Jollein was now a fact.

Now

By 2023 Jollein has become a household name with over 1500 customers all over the world. Jollein is teaming up with Mentha to take their international growth to the next level. Together, they're aiming to bolster Jollein's market share in existing regions and expand into brand new countries. With Mentha's expertise and support, Jollein is ready to take on the world. And even though we are going through some changes, one thing has never changed:

Jollein's family love!

INTERVIEW TJARDA

I am Tjarda Scholtens, 40 years old, and I have three children. I currently live with my boyfriend and his children. We have a blended family with six children in total. We never get bored; there's always something happening around our house!

How long have you been working at Jollein?

This summer marks my fourth year as a visual merchandiser and account manager at Jollein.

How would you describe Jollein?

Jollein feels like a big family. Communication is very open, and all ideas are welcomed and genuinely considered. We work together to create a beautiful end product. It's a young and enjoyable company to work for.

How do you start designing the layout of a new store? What is the first step?

First, I make a plan about what I want to sell in the store. I consider the store's square footage and how much space I want to allocate per product. A common mistake is trying to display too many goods in too small a space, which prevents optimal product presentation. Creating a to-scale sketch of the store can be helpful, as it allows for easy visualization of where each product will be displayed.

What are the key elements you always keep in mind when setting up a store?

A key element is creating calmness and clarity in the store. You want to showcase a variety of products in an orderly manner for the customer. Don't try to sell everything that customers might ask for—it's not feasible. Always consider what would make you happy when walking into a store.

How do you ensure the store layout is both functional and visually appealing?

Balancing functionality and visual appeal is indeed a challenge. You want to fit as many products as possible into the available space while maintaining a calm and orderly layout, as the products themselves can often be quite busy. The biggest challenge is functionality. The layout should look neat at all times, whether the store is full or not. Years of experience contribute to creating the optimal layout.

Do you have a favorite project you've worked on? Can you tell us more about it?

My favorite project is designing the new Jollein furniture, specifically the shop-in-shop system we now use. These pieces are used in our customers' stores to present Jollein products optimally. I was able to design these pieces thanks to my years of experience. It's gratifying to see how proper presentation can boost sales.

How do you collaborate with store owners to reflect their vision and brand identity in the store layout?

First, I take a walk around the store to see the possibilities. Then, I sit down with the client to discuss their ideas and what they want to present in the store. I start by sketching the entire store layout. For Jollein, we have a fixed shop-in-shop system for in-store presentation. I will indicate where we prefer to be presented, but the other brands are up to the client. I can offer my suggestions and include them in the sketch, but ultimately, it's not my store.

How do you stay inspired and where do you get your ideas for new store layouts?

I visit various stores to observe their layouts. I view social media differently than the average person, and I also draw a lot of inspiration from nature and the outdoors.

What is your ultimate tip for store owners regarding their layout?

“Anything that gets attention grows!”

Thermall Overall Grade, or TOG.

Wait, what!

An incredibly useful rating system that helps parents determine the perfect sleeping bags for their little one. TOG values range from 0,5 to 3,5, making it easy to choose based on the ambient temperature. The colder it is, the higher the TOG value you'll need. Super convenient for when you're unsure! All Jollein sleeping bags, including both sleeved and sleeveless options, are TOG tested. You'll find the TOG value on the attached booklet, ensuring your baby stays comfortably snug no matter the season.

TOG advice for sleeping bags with sleeves

Our sleeping bags with removable sleeves are your go-to choice for transitioning between seasons and for the winter months. They provide extra warmth during cold nights and can be easily adjusted to the surrounding temperature by simply zipping off the sleeves.

The Adventure of Daisy, Rose, Ella, and Dave in Search of the Queen's Enchanted Flowers

Once upon a time, there was a flower girl named Daisy. She wore an enchanting purple dress with a small heart on the front and liked to wear her hair in two small buns on her head. She walked through the castle gardens, searching for her flowers. To-day, the queen needed them for her big party. But to Daisy's horror, her flowers had disappeared! She ran through the gardens, her eyes scanning for their cheerful colors.

Suddenly, she saw Rose, another flower girl, tending to beautiful roses. Rose was very beautiful, always wearing a green dress, with her gorgeous red hair tied up in a large bun on her sweet head. Daisy told her sad story to Rose, who immediately wanted to help. Together, they searched, looking under bushes and behind trees, but the flowers were nowhere to be found!

Running towards the magical lake, they saw Livia and Mae fluttering around. The enchanting fairies were always near the castle to protect it. They always wore cute dresses, and their wings sparkled in the sunlight. Unfortunately, they hadn't seen the queen's flowers anywhere.

Just as Daisy began to lose hope, they encountered Ella at the magical lake, a friendly mermaid with glittering hair. Ella was a magical mermaid who had lived in the castle's lake for centuries, and one day the king had given her a crown, which she wore every day. Daisy begged Ella for help, and Ella immediately dove into the water, searching for the flowers. She asked the frogs, the fish, and the ducks, but even in the lake, the flowers were nowhere to be found!

Then Dave appeared, the superhero, flying through the sky like a true hero, always dressed boldly in his superhero cape and mask! Daisy begged him for help, and Dave shot into the air to search for the flowers. He finally found them and tucked them into his superhero belt. Daisy was so happy that she hugged her friends, and together they returned to the castle.

Daisy knew she could always count on her friends, even when things got tough. With friends by her side, there was nothing she couldn't do!

Q

Inez

I'm Inez, 32 years old, the 'webshop queen' at Jollein, mom to Charlie (2), and expecting baby number 2 in November 2024. I grew up in a small village in Groningen and recently moved to Zuidlaren, Drenthe. For the past year, I have been the Webshop Manager at Jollein, responsible for all B2B and B2C webshops. This role allows me to channel all my creativity! To stay fit, I also coach a class once a week at Mom in Balance, providing fitness lessons to pregnant and new moms and active mothers.

How would you describe Jollein?

I would describe Jollein as a brand dedicated to helping parents experience all the first moments with their baby using safe, stylish, practical, and high-quality products. I see the passion and dedication in every product, and it always makes me proud to be part of this team. Within our office walls, we inspire each other and maintain a very friendly atmosphere.

What does a typical workday look like for a webshop manager at Jollein?

Every day and week is quite different. One week I might be launching a new campaign, and the next week we are deep into preparations for the new collection. Never a dull moment!

I start the day with a cup of coffee (what else) and catch up with my friendly colleagues. Then it's time to get to work and check all the figures to see if we are ahead or behind and if there is anything noteworthy. Of course, I check my email, followed by our weekly marketing campaign meeting where we discuss ongoing campaigns and brainstorm new ones. Time for lunch! On Thursdays, we always order a delicious sandwich, and the rest of the week it's usually a peanut butter sandwich (the entire marketing team has a jar of peanut butter on their desk, lol). Often, we also go for a walk. After lunch, I work on A/B tests or optimizations for the webshop, such as the current sleep sack selection tool. Around 4:30 PM, we always discuss within the team what's on the menu for the evening, which is great for inspiration, and we eagerly participate in 'double your salary' on Qmusic. In between, I often have meetings with developers about ongoing projects.

Working at Jollein since May 2023, so it's been over a year now.

“

I see the passion and dedication in every product, and it always makes me proud to be part of this team.

”

How do you ensure the webshop is always up-to-date and user-friendly for customers?

By continuously gathering data, which provides valuable insights. I also frequently brainstorm with the webshop builders about how we can optimize the shop. Our webshop is built on a system that is constantly updating, so I can test many new or different tools or features to find what works best for our customers. Additionally, I occasionally conduct user research and take inspiration from other webshops. Colleagues and even customers sometimes provide feedback and great suggestions.

Can you tell us about a time you overcame a major challenge in your role? How did you do it?

My biggest challenge so far at Jollein was the launch of the new B2B webshop. There's so much preparation involved, and a lot is riding on it. It affects almost every department within Jollein, especially the order placement by our customers. It required a lot of coordination with colleagues and external parties. You work with deadlines, and sometimes it remains uncertain whether what you have planned will work right up to the deadline. Sometimes not everything goes smoothly initially, which can be difficult for my perfectionist brain, but it's gratifying that we continually optimize to make the shop more user-friendly for our customers.

What do you enjoy most about working at Jollein?

Working with a team of friendly, motivated, creative colleagues. It's contagious and inspiring for me. I always find it a joy to come up with campaigns/ideas together and then see them come to life. From campaigns planned months in advance to spontaneous ideas that go live in a couple of days, everyone is always thinking in possibilities, and we often have the opportunity and freedom to explore these ideas, which makes it very enjoyable.

What is your ultimate relaxation moment of the day?

During the workday, it's the afternoon walk. Closing the laptop, soaking up some vitamin D, and catching up with colleagues, not about work. It provides a nice break and gives new energy for the rest of the day.

I have heard that you have a 'tasty Thursday' tradition. What's your favorite sandwich?

My favorite day of the week, we often start in the office at 9:30 AM with the question, "What shall we order for lunch?" My favorite sandwich is normally the carpaccio sandwich with truffle mayonnaise, but unfortunately, I can't have it now due to my pregnancy. So, I go for the brie sandwich with chutney and walnuts, yum.

Favorites of Jollein

We have listed all the favourite items from our colleagues at Jollein below!

Margreet, Product Marketing Manager, mother of Elin (1)

My favorite items from the collection are undoubtedly the new dolls. It's super exciting that the fairies from the previous collection now have new friends joining them! My daughter is a big fan, especially of the mermaid. She can play for hours, letting her imagination run wild with these cute dolls. It's amazing to see how happy she is with her new playmates. The new dolls truly bring a magical world to life for her.

Celine, Buyer/Demand planner

My absolute favorites are from the Teddy Lovely collection! The footmuff, backpack, and shopper in this theme are not only adorable but also seamlessly complement the other charming pieces in the collection. They add an extra touch of whimsy and style that make every outing or adventure feel even more magical.

Rianne, Back Office employee, Mother of Lian (8), Marij (4), Hanne (2)

My favorite item from the new Jollein collection is the adorable Miffy Terry Bathponcho and Duvet Cover Set. The bathponcho is perfect for wrapping up my daughters after a bath, keeping them warm and snug. The jacquard-woven Miffy design adds a charming touch that they absolutely love. The duvet cover is another favorite with its all-over print featuring Miffy's head. It's both cozy and cute, making bedtime something they look forward to.

Tim (24), Junior Marketeer

My favorite items from the new Jollein collection are the Stuffed Animal Roarsome and the Wooden Crocodile on Wheels. My nephew adores the dino! Its soft, huggable texture is perfect for cuddles and play. The Wooden Crocodile on Wheels is another hit. He loves bringing it along on his adventures, and it helps develop his motor skills.

Shyra (22), Junior Creative Designer

The Nostalgic Ride theme from our new collection is one of my favorites! The color palette and print bring back nostalgic feelings from my childhood. Growing up on a farmhouse, I had a wooden rocking horse just like this. It reminds me of those simpler times and adds a touch of vintage charm to any nursery. This theme is my favorite because it feels like a warm hug from the past.

Susan, Export Manager, mother of Aaron (14), Nora (12)

I absolutely adore the lovely birds theme from our new collection! It's such a charming and romantic print, featuring delicate little birds and branches with flowers. The Ivory background provides a fresh and serene canvas, beautifully highlighted by soft, gentle colors. This print brings a sense of tranquility and joy. This print makes any nursery feel cozy and magical, which is why it's my favorite.

Go Organic, Go GOTS

The finest and softest products and also with the GOTS label? Jollein has it! GOTS is an internationally recognised standard for organic cotton. The requirements to get this label for a product are not only about the fabric itself, but also how it is manufactured and where it comes from. So we not only care for babies' sensitive skins through soft organic cotton, but we also care for the people who produce these beautiful fabrics.
