

WOOD COUNTER (FOR FOLDING TENT)

Varnished wood counter. Available in several dimensions of 3m or 4m. It can be used as a display or refreshment counter.

With a clean and authentic aesthetic, very easy to assemble, our counter is extremely stable and solid. It was designed for XP, ZP structures.

COMPOSITION

Composed of 2 varnished wooden trays which fold up on themselves, our counter is very easy to handle, transport and store.

DIMENSION

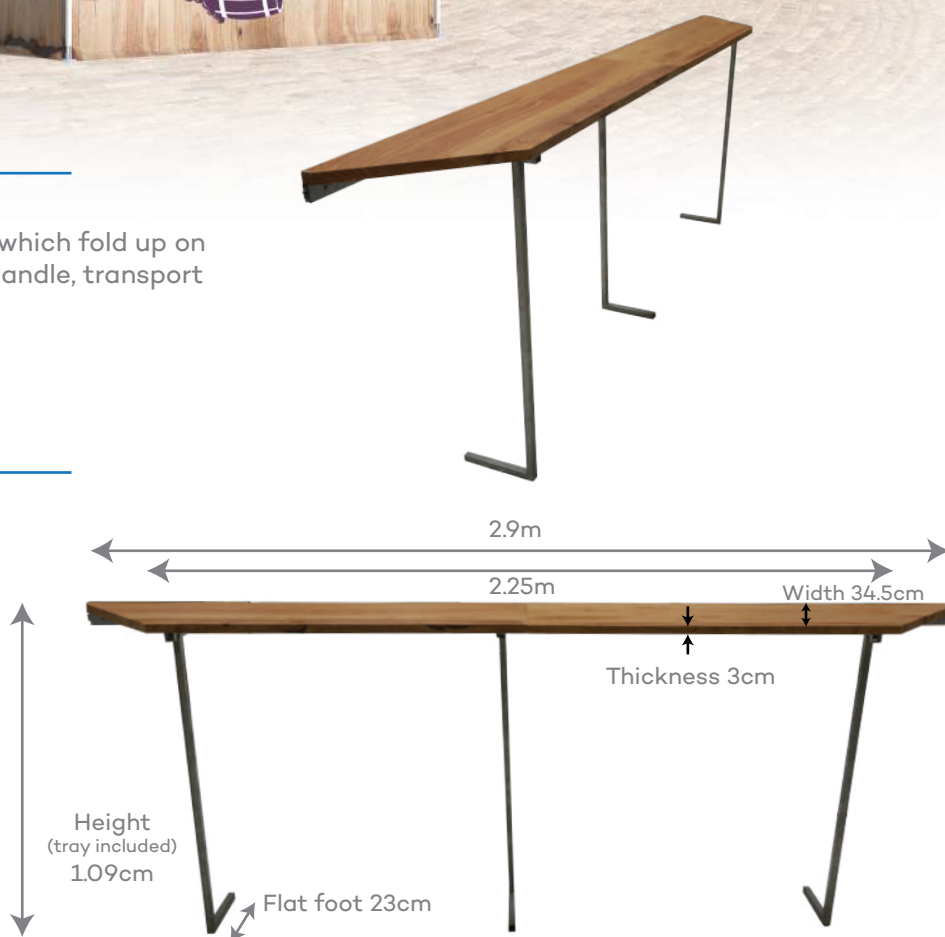

Our counter table is designed to fit a 3m or 4m side of a folding barnum including connectors.

General dimensions:

- Tray width: 34.5cm
- Height (including tray): 1.09cm
- Top thickness: 3cm
- Flattened foot: 23cm

Counter 3m:

- Total exterior length: 2.90m
- Total interior length: 2.25m

TOP

The wooden top of our counter table is composed of 2 panels made of 4 plies glued in 12% dried pine, with a clear varnish finish.

A counter skirt can be slid to hide the base (optional).

BASE

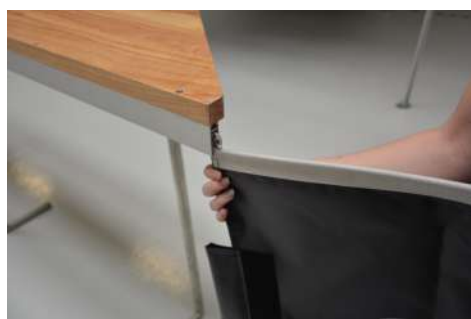

Our folding counter consists of two parts, one with two folding legs, the other with 1 folding leg, for a total of three legs in all.

All of which gives the counter excellent stability.

The feet are locked in the closed or open position by a system of clips.

HALF WALL INTEGRATED

Dressing the folding counter with half wall is very quick and easy.

The half wall slides into a groove system integrated in the metal part under the wooden counter.
