

DESCRIPTION

Safety boot for Forest Firefighters with cut protection by class 2 chainsaw.

Upper: PBI® fabric and microfiber resistant to fire and water. Inner lining chainsaw resistant.

Inner membrane: Gore-Tex® membrane. Waterproof, breathable and resistant to chemicals common in firefighting

Insole: Anatomically preformed, antibacterial, great energy absorption and recovery.

Protective Insole: Non-metallic puncture-resistant insole.

Toe cap: Non-metallic with rubber outer protection.

Threads: Double stitched aramid, water-repellent and fire-resistant.

Laces: Hydrophobic, water and fire resistant, made of aramid

Sole: Anti-static, fire-resistant made of outer nitrile rubber and inner polyurethane, with anti-slip and hydrocarbon-resistant protrusions.

Reflective parts: fire resistant, high visibility.

FIRE TECH RANGE

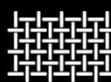

FAL FTX701C

Normative:	EN 15090:2012 FIPA+T+SRC+HI3+CI+AN EN 17249 :2013 Class 2
Reference:	652203
Sizes:	36 to 49 EU
Weight:	Aprox 1,85 kg/p size 42
