

CUS 160

Rescue Cushion

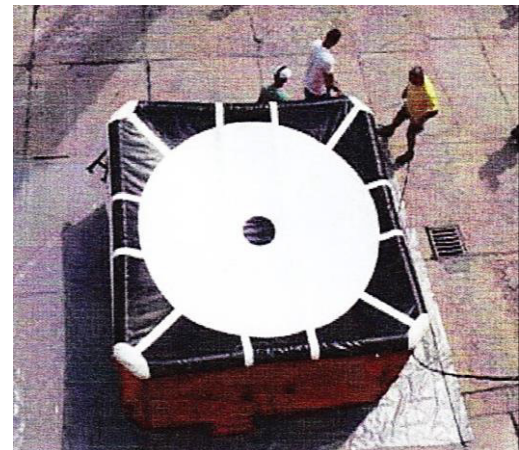

A fast rescue solution in case of fire

Ideal in fire emergencies as **an alternative to ladders** and to facilitate rapid evacuation, our rescue cushion is **quick and easy to deploy**, in just a few moments.

Highly stable, it offers virtually no bounce as it absorbs impact toward its center. Lightweight, the rescue cushion can be easily moved when inflated and comes in a **compact package** for transport and storage. Designed to be inflated using a compressed air cylinder, it regains its shape within seconds.

Our rescue cushion is available for **jump heights up to 16 meters**, and complies with the **DIN 14151-3 standard**.

	CUS 160
Material	Polyester fabric with double PVC coating
