FIRE**

FOG LANCE NOZZLE

NATO Stock Number (NSN): 99-666-3703

KEY USERS

- Marine Sectors
- Defence
- Fire & Rescue Services
- Petrochemicals
- Oil & Gas
- Chemical Facilities
- Nuclear
- Mining

KEY FACTS

- 2 metres long - Designed to Access Hard to Reach Areas
- Fine Fog Patterns
- Optional Ball Valve Control
- Weather, Ozone & UV Resistant
- Low Maintenance
- Available with all International Inlet Adaptors

Fog Lance Nozzle

Doc Ref: DDS134

GENERAL DESCRIPTION

The Delta Fog Lance is a 2m long nozzle designed to enable firefighter access to hard to reach areas such as under car chassis on ferries or confined spaces such as cable ducting, ship's holds, engine compartments, loft spaces and waste skips.

Most commonly used for marine applications the Fog Lance is equally suited to any situation where access to the seat of the fire is restricted. The corrosion resistant gunmetal nozzle tip produces ultra-fine water sprays creating dense fog patterns that rapidly extinguish and cool while keeping the operative at a safe distance.

Supplied as standard with a 1" BSP male inlet the Fog Lance is compatible for use with any International inlet adaptor and can be fitted with an On/Off ball valve for complete operator control (optional).

Delta's Fog Lance Nozzle is used by Professional Fire Services and Naval Fleets around the world.

THE RANGE

Product Code	NFL701052	NFL701000	NFL710022	NFL720022
Function	Spray/Fog	Spray/Fog	Spray/Fog	Spray/Fog
Length	2m	2m	2m	2m
Inlet	1" BSP Male	1" BSP Male	2 ½" Instantaneous	2 ½" Instantaneous
Nozzle Tip Material	Gunmetal	Gunmetal	Gunmetal	Gunmetal
Inlet Adaptor Material	N/A	N/A	Gunmetal	Gunmetal
ON/OFF Ball Valve (Brass)	N/A	Included	N/A	Included

Inlet Adaptors also available in Light Alloy.

Gunmetal Fogging Nozzle

Optional Ball Valve Control
