Collapsible spill bund Eccotarp ET

This collapsible spill bund is designed for a quick response to accidental leaks of water, oil-based products and chemicals. The spill bunds are delivered in several sizes. It is also possible to use the bigger models both as large volume containers and to capture spills when siphoning fuel from refuelling trucks.

- ▶ Possibility of fitting round any object
- ▶ Immediately ready to be used even in inaccessible areas
- ▶ Easy handling
- ▶ Maximum carrying capacity 200 kg
- ▶ Built-in level indicator to show the quantity of retrieved liquid
- ▶ Possibility of adding of drain hole and ball valve

**Quickly and easily converts
into a pool, ready to capture all
spills and leaks**

Examples of
uses

Placing of handling
belts is easy and fast
thanks to the new type
of hooks

Possibility of adding
of drain hole and ball
valve

Protective
insert

Securing of
the corner of
the bund by
a yellow hook

The bag is
a standard part
of the product

Product variants

The **XL DECON** spill bund with its lower sidewalls is especially suitable for emergency decontamination of people. The reinforcements in the sidewalls of the **EASY PACK** are multi-segmented, so the bund folds better around any obstacle and it can be folded into a smaller pack.

The **SHALLOW** version with its extremely low profile design can either be used in inaccessible areas, especially in narrow spaces with low headroom, or as a spill collecting tray to ensure safe filling and emptying of vessels.

Technical details

Due to reinforcements in the side walls the spill bunds are rigid and self-supporting. They are made from thick fabric with a protective proofing layer (PES/PVC 680 g/m²). They are resistant to oil-based substances, acids and alkalis at temperatures between -30°C and +70°C (see. Chemical resistance certificate in the relevant chapter at the end of catalogue). New handling belts – with a maximum carrying capacity 200 kg and safety fastening hooks at both ends – are used for manipulation.

The protective pad and special liner which are delivered as accessories considerably enhance the durability of the spill bund.
