vf Extinguisher Backpack

Comfort and versatility under the harshest of conditions

The VF Extinguisher Backpack is a major advance in ergonomic professional equipment. Designed for use in various operations, it offers more comfort, performance and operability for firefighting brigades combining the use of extinguisher backpacks with manual tools.

- > Easy-to-fill: a larger filling cap with a built-in filter.
- > Two loading handles: For easier filling at outdoor water points.
- > High visibility: Reflectors integrated throughout the design.
- > Velcro straps on the side for the nozzle.
- > Velcro straps on the back to carry tools.
- > Padded straps on the shoulders and waist for more comfort.
- > An Alice Clip system to personalize the belt.
- > Rear compartment: ideal for storing supplies, small tools or the VF Extrem Shelter fireproof tent.

1. Dual gallonage nozzle

The dual gallonage nozzle provides a straight stream flow in both the reverse and attack positions. A simple twist of the nozzle tip adjusts the flow from fog to straight stream. The handle is designed with an ergonomic shape for easier use of the nozzle and to prevent friction and blows to the hand during use.

CHARACTERISTICS

- _ Made of nickel-plated brass.
- _ Flow 8 l/min.
- _ Reaches up to 12 m.
- _ Adjustable straight stream flow.

2. Manual tools

The rear fixing system on the VF Extinguisher Backpack means it can carry almost any type of manual tools. This all-new system can combine the use of water with manual tools.

2.1. Fire swatters

2.2. Pulaski and Dragonslayer

3. Replacement parts available

Replacements are available for all the backpack parts.
