

An instant solution for individual decontamination

Our decontamination cabins are designed to offer a **rapidly deployable solution against biological, nuclear, or chemical hazards**.

Safe, robust, and easy to use, our inflatable cabins are equipped with an **integrated shower system** supplied with clean water and decontamination agent, allowing the treatment of **up to 30 victims per hour**.

These cabins can function as standalone units or be integrated into existing COLPRO systems, providing immediate assistance in the event of CBRN attacks or industrial disasters (SEVESO sites).

Available Equipment :

- Decontamination brush
- Handheld shower head
- Water heater
- Clean and contaminated water tanks (various sizes)
- Booster pump
- Wastewater evacuation pump

Inflation Methods :

- Electric blower
- Compressed air cylinder with pressure regulator

Deployment :

- 1 minute
- 1 person

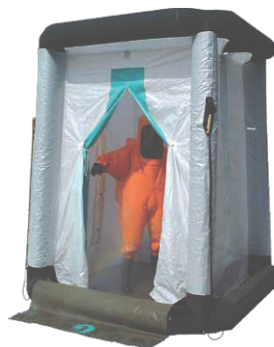

- Rapid inflation
- Versatile solution suitable for all types of terrain
- Sturdy construction
- Ideal for CBRN and TIC decontamination

A cabin for every need :

DC100
1,8 x 1,8 x 2,5m
45 kg
