

evercare® Medical face mask with ear-loops, type II

REF: 2882

evercare® Medical mask with ear-loops, Type II provides a barrier to minimize the direct transmission of infective agents between medical staff and patient. The mask is slightly shorter in width than many other face masks but at the same time it is also wider when in open size. The design of the side sealing and the anchoring of the ear loops help to reduce the gaping at the cheeks and makes the mask more conforming to the face. This overall design results in a deeper cup-shape, which is better conforming and provides a fitter coverage of the nose and mouth. This is a single use product.

Key Features:

- ▶ EN 14683 type II 3ply medical face mask
- ▶ Bacterial Filtration Efficiency (BFE) $\geq 98\%$
- ▶ Anatomic pleated folding limiting inward leakage
- ▶ Comfortable elastic earloops design for reduced pressure to the ears
- ▶ Designed to be more conforming to the face
- ▶ Flexible nose wire for proper fit
- ▶ Color: White

Technical Summary

Regulations

The product complies with legal requirements for medical devices

Not made with
natural rubber latex

REACH regulation:	The product(s) covered by this data sheet does(do) not contain substances classified as carcinogenic, mutagenic or toxic for reproduction (CMR), including any of the Substances of Very High Concern (SVHC) as listed in the latest available version of the Candidate List published by European Chemicals Agency (ECHA).
Biological evaluation:	EN ISO 10993-5, EN ISO 10993-10
Compliance with legal requirements:	Medical Devices Directive 93/42/EEC, Class I
Compliance with product standards:	EN 14683 Type II
Quality standards:	EN ISO 13485
Label information and packaging compliance:	EN ISO 15223-1, EN 1041

Material

Product Part	Raw Material & Characteristic
Outer coverstock	Spunbond PP nonwoven, white
Filter media	Meltblown PP nonwoven, white
Inner coverstock	Spunbond PP nonwoven, white
Nose wire	Polyethylene
Ear loops	Spandex, Polyester and Polyamide, white, latex-free

Warnings and Recommendations

Warnings:	The product is single use. If reused performance of product may deteriorate, cross contamination may occur.
Storage Recommendation	Recommended storage in clean, dry space in ambient temperature. Products should be protected from direct sunlight, other intensive light sources and ozone.
Disposal Recommendation	Product and packaging materials to energy recovery or mixed waste.
Shelf Life	5 Years

Packing Information
