MEET THE ORGANIC BLENDS

At the heart of the aromatherapy range is the Evolve Bioenergetic Wheel inspired by seasonal rhythms, holistic wisdom, and the science of neurophysiology. It identifies four core energy needs:

Energise · Nurture · Calm · Detox

Evolve Organic Beauty has developed four signature essential oil blends to support these needs, formulated to deliver proven wellness benefits while creating a beautiful, sensory experience. Each scent in the collection has been thoughtfully crafted to align with a specific emotional state, offering a targeted sensory experience that supports the way you want to feel. Whether it's clarity, joy, calm, or deep nourishment, every blend is designed to guide the mind and body towards balance.

ENERGISE: JOYFUL LIGHT

Uplifting and energising with Neroli and Ylang Ylang,

Inspired by the radiant energy of daylight, Joyful Light Essence is a luminous blend of five mood-lifting essential oils that captures the feeling of sunshine in a bottle. At the heart of this vibrant aroma are Neroli, Sweet Orange, and Litsea essential oils, traditionally known for their bright, expansive energy and ability to elevate the spirit. These radiant notes are gently balanced with Ylang Ylang, offering creativity and inspiration and Petitgrain, offering the sense of emotional harmony and calm.

Energetically charged with light, this essence is perfect for moments when you need to shift your mood, spark inspiration, or bring an uplifting sense of cheer into your space.

NURTURE: WILD DIVINE

*Magical and nurturing with Cacao, Geranium
and Rose*

A celebration of the divine feminine, Wild Divine Essence is a deeply nurturing blend crafted to support self-connection, heart opening, and a return to confidence. CALM: ZEN WHISPER

Promotes calm and rest with Lavender and Frankincense

Inspired by the quiet voice of intuition that arises in stillness, Zen Whisper Essence is a grounding blend created to support deep relaxation and the body's natural shift into the parasympathetic state. At its heart is Lavender, long revered for its calming properties, gently anchored by Frankincense, Vetiver, and Sweet Marjoram to soothe the nervous system and encourage slow, conscious breathing. A hint of Bergamot brings soft lightness, easing emotional tension and quieting a busy mind.

This essence is perfect for moments when you need to step back, slow down, and reconnect to your sense of inner calm.
