

LAUNCHING ON: 14/04/2025

RRP: £19

99.9% NATURAL, 95.7% ORGANIC

Brighten, hydrate and smooth the delicate eye area with newly reformulated Hyaluronic Eye Serum!

Discover the power of Evolve's Hyaluronic Eye Serum, specially reformulated for even more effective results. The new formula is enhanced with double the concentration of Tuberose Stem Cells, clinically proven to visibly reduce dark circles, puffiness, and wrinkles while promoting firmer and brighter skin. Now enriched with multi-molecular Hyaluronic Acid, this serum delivers both instant and long-lasting hydration, smoothing fine lines and enhancing skin texture around the delicate eye area.

Hyaluronic Eye Serum is also formulated with refreshing Cucumber Water that provides a soothing, cooling sensation - perfect for revitalising tired eyes throughout the day. The unique steel rollerball applicator boosts lymphatic drainage and further helps reduce puffiness around the eyes.

Say goodbye to tired, puffy eyes and hello to refreshed, hydrated radiance!

HYALURONIC EYE SERUM

KEY INGREDIENTS

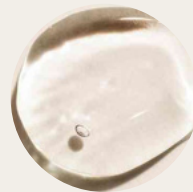

TUBEROSE PLANT STEM CELLS

Tuberose Plant Stem Cells, derived from the tuberose plant, increase microcirculation to improve firmness and brighten skin tone. They soothe, moisturise, and are clinically proven to effectively target dark circles, puffiness, and wrinkles. An in vivo study on Tuberose Stem Cells showed a general improvement in the three major alterations around the eyes within 30 days, with 76% of women reporting that dark circles were less coloured, 61% noting reduced puffiness, and 52% observing a reduction in crow's feet.

MULTI MOLECULAR WEIGHT HYALURONIC ACID

Featuring high, low and very low molecular weight Hyaluronic Acid to deeply hydrate the under eye area, reducing wrinkles and fine lines while improving skin tone. Low and very low molecular weight Hyaluronic Acid sink deeper into the skin for more effective hydration, promoting increased collagen production for a smoother, firmer appearance.

ORGANIC CUCUMBER WATER

Organic Cucumber Water helps to cool and soothe tired eyes, aiming to reduce under-eye bags and diminish the appearance of dark circles.
