

BUGGY

VERSATILE AND AGILE – OUR NEW BUGGY!

The new Outdoor Buggy by beleduc is the best transportation for all loved dolls and cuddly toys. Ideal for mother-child-roleplay which children love. Due to its durability (up to 50 kg) children can also drive each other around on the playground.

Our Buggy is very agile due to the rotatable backwheels and small turns are no problem.

Amazing playing fun for both driver and passenger is guaranteed.

In smaller, tight turns the handles on the sides offer great stability and the one being pushed feels as if they are directing the Buggy themselves.
