CELLULOID ACCORDIONS

THE CASE: A MELODY OF PRECIOUS WOODS

To guarantee high-quality, unique and exclusive accordions, we use the finest timbers, treated and preserved with the utmost care, selected by experienced craftsmen.

Mahogany, alder, beech, fir, poplar... each type of wood has different characteristics and is carefully chosen for each accordion component in order to achieve the best amplification of vibrations and a melodious sound.

Skilled masters then coat the accordion case with celluloid, which gives the instrument a new, uniform and refined appearance.

LA CASSA: UNA MELODIA DI LEGNI PREGIATI

Per realizzare fisarmoniche di alta qualità, uniche ed esclusive, usiamo legni pregiati, trattati e conservati con la massima cura, selezionati da artigiani esperti.

Mogano, ontano, faggio, abete, pioppo... ogni tipo di legno presenta caratteristiche differenti e viene scelto attentamente per ogni componente della fisarmonica al fine di cogliere la migliore amplificazione delle vibrazioni ed ottenere un suono melodioso.

Abili maestri di lunga esperienza rivestono poi la fisarmonica con il celluloido che conferisce allo strumento un nuovo aspetto uniforme ed una maggiore protezione.

SOLID WOOD ACCORDIONS

SOLID WOOD: ACOUSTICS AND NATURAL BEAUTY

In order to maintain the ancient tradition when accordions were made of solid wood, we have created an all-natural massive wood line that fully enhances the sound amplification.

The wood grain, the knots and the colour variations over time are the morphological characteristics of this natural material that make each of our wood accordions a unique and unrepeatably work of art.

IL LEGNO MASSELLO: ACUSTICA E BELLEZZA NATURALE

Per mantenere l'antica tradizione che voleva le fisarmoniche realizzate in legno pieno, abbiamo creato una linea tutta in massello naturale che valorizza pienamente l'amplificazione del suono.

La venatura del legno, i nodi e le variazioni di colore nel tempo costituiscono le caratteristiche morfologiche di questo materiale naturale che rendono ogni singola fisarmonica un'opera unica e irripetibile.

**SOLO
CHERRY**

<< I love his wood finish, is very elegant,
but this is not only great aesthetically it also
makes for a really mellow and soft tone.
The playability of the instrument is also excellent,
the keyboard is very soft yet responsive, the
accordion is well waited and balanced, it sits nice
and is light which is handy for me as I do a lot of my
playing standing up. Despite that, it's a very sturdy
accordion, in the 4 years that I've been playing it I
haven't broken a reed or damaged it despite
extensive gigging so touch wood that continues! >>
(Tom Willis - The Stowes Band, UK)

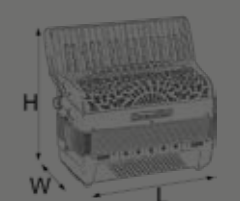

**SOLO

<< Fantastic sound and dynamic,
especially with the L-shaped reed
blocks in the bass that gives a very
deep and warm bass sound. Really
a top-class instrument.>>
