Manual Wire Harness Taping Tool

Wire harness taping

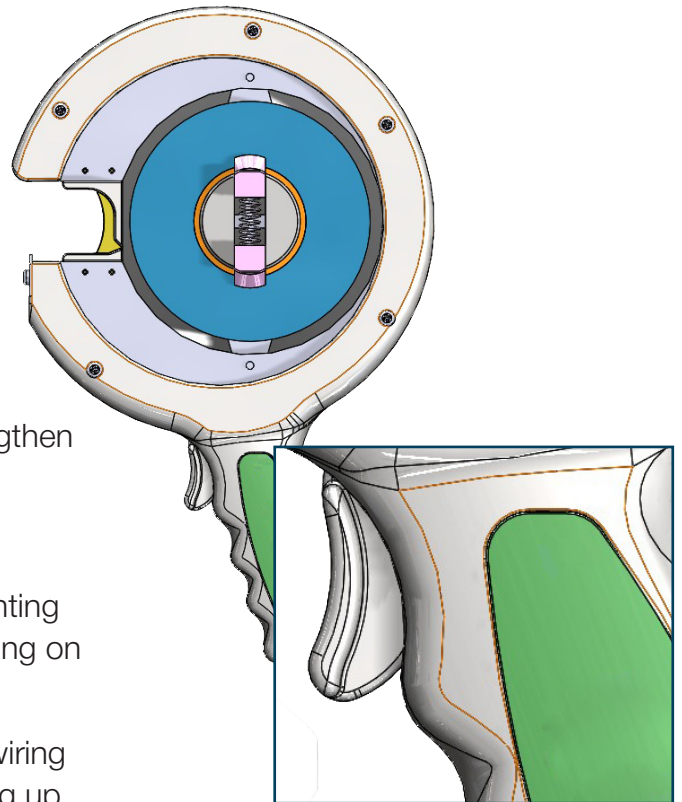

## Manual wire harness taping tool

SM Contact presents it's novel solution for wrapping wires with insulating tape which is the manual wire harness taper. This tool substitutes hand winding and ensures significantly more quick and qualitative insulation.

### You benefit in

- Light-weighted taping tool
- Simple and convenient process of its operation
- Speed and quality of wire harness taping
- Easy interchangeable tape roll
- Ergonomical construction
- Enhanced system of the tape cutting with strengthen fixation
- Enjoying the aesthetically pleasing appearance
- Customized design: basic version, standard printing (SM Contact library), customized printing, engraving on the handle

Our taping tool is indispensable for mounting of wiring harness with sections length over 50 cm and tying up of wires to harness.
