

CALOTEC

MOULDING SYSTEM

connectors, cables, printed circuits

Two-station and heads-holder carriage with automatic translator.

Model 1002-F With melting unit and injection head for small and medium moulding.

Model 1002-P With gun and injection head for small moulding.

Technical data	
In accordance with CE standards	
Mould holder plate	n.2
Mould-holder opening and closing	manual
Melting unit capacity	Kg. 5
Data setup	by keyboard and back lighted display
Programmable quantity of pieces	programmable
Storable code numbers	max.100 on each station
Melting temperature	Adjustable max 240 C
Injection system	Gears pump
Injection pressure	Adjustable
Pump injection speed	Adjustable max 180cc/min.
Electric power - absorption	230 V 50Hz. - 3A
Air supply	6 bar uninterrupted
Melting unit power	400V 50 Hz. - 4Kw
Overall dimensions	1500x900xH 1500 mm
Weight	Kg.160
Melting unit overall dimensions	900x500xH 900mm
Melting unit weight	Kg.70
