

CARBU CLEAN

Very powerful cleaning agent for carburettor

Spray

TYPE OF USE

Carburettor cleaner specially developed to eliminate deposits and varnishes on throttles, throttle-chambers, nozzles, tanks, floats, venturi tubes.

PERFORMANCE

Dissolves rapidly all deposits and varnishes.

MOTUL Carbu Clean stabilizes the engine idle and improves engine acceleration.

RECOMMENDATIONS

Shake before use.

Remove the air filter, start the engine, and spray MOTUL Carbu Clean in the air intake pipe.

If necessary, repeat the operation with the engine on while spraying product on nozzles and throttle chambers.

For deeper cleaning, turn off the engine, disassemble the carburettor or injection body.

Spray MOTUL Carbu Clean from a short distance on the areas to be cleaned: throttles, throttle-chambers, nozzles, tanks, floats, venturi tubes.

Let stand for 5 to 10 minutes.

If necessary, re-spray on very dirty areas.

MOTUL Carbu Clean stabilizes the engine idle and improves engine acceleration.

For 4 stroke engines, complete the operation with MOTUL Fuel System Clean.

SECURITY

Refer to the MSDS sheet and the information mentioned on the spray.
