Embellishments & Fabrics

Discover your favorite styles, then let the fun begin! GK offers the industry's most extensive selection of fabrics and embellishments, ensuring you get the colors and options you want to create every extraordinary look.

Crystals Embellishments

GK offers a large assortment of crystal embellishment options. With two crystal options - Premium and Standard – your apparel designs can sparkle and shine all while fitting within your budget!

Premium Swarovski® Crystals

The GK Premium Swarovski® Crystal collection features authentic crystals giving your apparel the best and brightest sparkle on the mat. With an intricate and multilayered cut, which creates a diamond-like sparkle, Premium Swarovski® crystals have 4x the facets of a Standard crystal with 2.5x the brilliance. Premium Swarovski® crystals are incredibly durable featuring 10x more hotfix glue than competitor crystals to keep your stones in place. Premium Swarovski® crystals are scratch, bubble, and chip free.

Since 1994, Swarovski® crystals have adorned GK leotards and apparel and offer the best brilliance and sparkle under the competition lights. Outshine the competition with Swarovski® crystals.

Standard Crystals

The GK Standard Crystal collection offers high-quality crystals at an affordable price. Featuring crystals made in Austria, these perfectly geometric crystals are consistent in color and size. Standard crystals are also resistant to environmental influences, feature strong hotfix glue, and have a high wash resistance which keeps your apparel intact and beautiful all season long.

Sublimation Fabrics

GK is committed to providing the very best sublimation processes in the industry. We work with our fabric vendors and sublimation ink suppliers to continually improve the outcome of our sublimated garments. These improvements may affect the sublimated colors on reorders, as we continue to advance our sublimation techniques. Due to the nature of the sublimation process, GK will match the color on reorders to the best of our ability, but cannot guarantee a perfect match. Please be mindful that wear and washing throughout the season will affect the color saturation in your garment. Reorders will be processed based off the artwork and colors used in the original production order, and may not match the garments already in use.

Women's Sizing Instructions

At GK, years of pattern development have taught us that the most accurate way to ensure proper fit is to rely on body measurements. An individual's perception of fit may vary greatly; however, the GK Fit is scientifically engineered to move with the athlete for optimal performance. Measuring athletes takes the guess work out of selecting their size. It is quick, easy, reliable, and helps to achieve a similar fit for all team members.

The fit and feel of a garment will vary significantly based on the fabric type and embellishments used on the garment. Heavy embellishments and appliques reduce the stretch so the sizing sample may not fit or feel like the garment ordered for the team. To continue to provide the "GK fit" we use our size charts when ordering garments.

The following size charts have been thoroughly evaluated to ensure that taking accurate athlete measurements will result in the correct size being ordered. To select the correct size, reference the appropriate GK size chart for the style being ordered to determine which size best corresponds to the athlete's measurements.

* Long and Short torso options available for an additional cost.

** Select styles are offered in CXXS.

Women's Size Charts

How To Measure

When an athlete's measurement contains a partial inch, always round up to the next full inch. If an athlete's measurements fall across two sizes, order the larger size.

- 1. CHEST MEASUREMENT:** Measure the chest with arms at the side. Be sure to take the measurement at the fullest part of the chest.
- 2. WAIST MEASUREMENT:** Measure the waist at the natural waistline which is the narrowest part of the waist. If you're having trouble locating the natural waist, have the athlete bend to the side. The natural waist is where the body bends.
- 3. HIP MEASUREMENT:** Take the hip measurement at the fullest part of the buttocks with the athlete's feet together.
- 4. TORSO MEASUREMENT:** Take the torso measurement from the center of the shoulder, down the torso, through the legs, and back to the shoulder.
- 5. INSEAM MEASUREMENT:** Take the leg inseam measure the athlete without shoes by running the tape from the crotch to one inch above the floor.

Men's Sizing Instructions

How To Measure

When an athlete's measurement contains a partial inch, always round up to the next full inch. If an athlete's measurements fall across two sizes, order the larger size.

- 1. CHEST MEASUREMENT:** Measure the chest with arms at the side. Be sure to take the measurement at the fullest part of the chest.
- 2. WAIST MEASUREMENT:** Measure the waist at the natural waistline which is the narrowest part of the waist. If you're having trouble locating the natural waist, have the athlete bend to the side. The natural waist is where the body bends.
- 3. HIP MEASUREMENT:** Take the hip measurement at the fullest part of the buttocks with the athlete's feet together.
- 4. TORSO MEASUREMENT:** Take the torso measurement from the center of the shoulder, down the torso, through the legs, and back to the shoulder.
- 5. INSEAM MEASUREMENT:** Take the leg inseam measure the athlete without shoes by running the tape from the crotch to one inch above the floor.
