SPECS

- 1 LIGHTWEIGHT PERFORMANCE**
Engineered for uncompromising performance, the X.R5R weighs just 1350g (medium shell) thanks to its advanced X PRO Carbon construction. The reduced weight enhances comfort, minimizes fatigue, and maximizes riding precision. The model is also available in X-Matrix² multi-composite fiber, delivering exceptional strength, durability, and performance.
- 2 X-HIDRO STRAPS**
Stay hydrated on the move. X-HIDRO Straps securely hold your hydration tube in place, keeping it easily accessible and tangle-free throughout every ride. Designed for maximum convenience and performance, they ensure your focus stays on the race ahead.
- 3 ADJUSTABLE SPOILER EXTENSION**
Fine tune aerodynamic performance to match your riding style. The adjustable spoiler extension can be extended up to 20 mm, allowing riders to optimize airflow and high speed stability. The tool less design enables quick, effortless adjustments whenever conditions demand.
- 4 360° CUSTOM FIT**
The 360° Custom Fit system combines swappable inner pads and adaptive cheek pads for a tailored fit. Fine tune comfort and helmet stability to achieve the perfect race ready feel on every ride.
- 5 X RACE VISOR LOCKING SYSTEM**
Engineered for high speed performance, the X Race Visor Locking System keeps the visor securely shut, reducing unwanted movement and enhancing stability at racing speeds. In the event of an impact, the reinforced locking mechanism helps maintain a secure closure, providing an additional level of protection when it matters most.
- 6 RACE ENGINEERED VENTILATION**
Developed for peak performance, the advanced ventilation system features 8 air inlets and 5 exhaust vents to maximize airflow throughout the helmet. A dedicated racing chin ventilation system delivers fresh air directly where it's needed most, while additional cheek pad air channels enhance cooling and comfort during the most demanding rides and race sessions.
- 7 UNIVERSAL INTERCOM COMPATIBILITY**
Designed for seamless communication, the X.RALLY features ear pocket cutouts, a dedicated slot for universal intercom clamp mounts, and full universal intercom compatibility - perfect for staying connected on every ride.
- 8 DOUBLE D-RING IN PEARALUMAN**
Made from a durable aluminum-magnesium alloy, the Double D-Ring buckle offers superior corrosion resistance and reliable strength for a secure, comfortable fit every ride.
- 9 CHIN CAMERA SUPPORT 360°**
Designed for riders who want to capture every moment, the integrated chin camera support features a 360° rotating mount with four locking positions. Easily adjust the camera angle to suit your riding style and record the perfect perspective—on the road, on the track, or beyond.
- 10 RACE OPTIMIZED COMPACT VISOR MECHANISM**
The race optimized compact visor mechanism delivers smooth operation in a lightweight, low profile design. With three intermediate visor positions, riders can precisely adjust airflow and comfort without compromising focus or performance.
