RAZOR BLADES SCRAPER PLASTIC - 1IN - ASSORTED

Combine the 1" razor blade with a Blade Aide to keep a handle on things!
Blade replacement remains a snap.

ST0557CS

RAZOR BLADES - CARBON STEEL - 1IN - SINGLE EDGE - 100PK

The economical, carbon steel razor blades can be used alone or with a variety of scrapers. They are 1" wide and available in packs of 100.

ST0557SS

RAZOR BLADES - STNL STL - 1IN - SINGLE EDGE - 100PK

Our rust-resistant stainless steel razor blades are ideal for cleaning wet windows or cutting wet film. Use alone or with a scraper, they are 1" wide and available in packs of 100.

ST0556

RAZOR BLADES - PLASTIC - 1IN - SINGLE EDGE - 100PK

Keep sensitive surfaces scratch-free during cleaning with these single-edge, plastic razor blades. They are 1" wide and available in packs of 100.

ST0562RG

TRIUMPH SCRAPER 6IN - RUBBER GRIP

All of the benefits of the regular Triumph Scraper now with an anti-slip rubberized grip with ribs to provide a secure hold.

ST0562

TRIUMPH SCRAPER 6IN W/BLADE COVER

The 6" Triumph Scraper's length and lightweight design make it an efficient tool for flat glass installations. A safety blade cover is included for your protection.

ST0562AH

TRIUMPH SCRAPER - ANGLE 6IN - W/HANDLE & BLADE COVER

The angled handle, 6" Triumph scraper gives an installer a more natural grip and prevents knuckles from hitting the glass when cleaning. A safety blade cover is included for your protection.

ST0562RBSS-25

TRIUMPH REPL BLADES - STNL STL - 6IN - DOUBLE EDGE - 25 PK

The stainless steel replacement blades for the 6" Triumph Scrapers are double edged and available in packs of 25. The case features a built-in disposable slot.

ST0562RBCS-25

TRIUMPH REPL BLADES - CARBON STEEL - 6IN - DOUBLE EDGE - 25 PK

The carbon steel replacement blades for the 6" Triumph Scrapers are double edged and available in packs of 25. The case features a built-in disposable slot.

ST0561

PHASED OUT!

TRIUMPH SCRAPER 3IN W/BLADE COVER

ST0632B

3M SQUEEGEE - BLUE - 4IN

Remove "fingers" during film installation and shape film during heat shrinking with the 4" 3M Blue card squeegee.

ST0632G

3M SQUEEGEE - GOLD - 4IN

Remove "fingers" during film installation and shape film during heat shrinking with the 4" 3M Gold card squeegee.

ST0638B

HARD CARD - BLACK - 4IN

The 4" black Teflon hard card has thermoplastic properties to withstand higher temperatures, making it ideal for shaping film during heat shrinking.

ST0638G

HARD CARD - GOLD - 4IN

The 4" gold Teflon card squeegee is the ideal tool for shaping film during heat shrinking. Its thermoplastic properties withstand higher temperatures than other plastics.

ST0638W

HARD CARD - WHITE - 4IN

The 4" white Teflon card squeegee is the ideal tool when firmness is needed. Its thermoplastic properties withstand higher temperatures than other plastics.

ST0476

PEACH HARD CARD SQUEEGEE

These cards have a proprietary blend of polymers that make the cards glide across film unlike other cards. These cards are similar in shape to teflon cards.

ST0634

SQUEEGEE - LIDCO - 4IN

Remove "fingers" during window film installation and shape film during heat shrinking with the 4" standard Lidco.

ST0633

SQUEEGEE - LIDCO - HVY DTY - 4IN

Remove "fingers" during film installation and shape film during heat-shrinking with the 4" heavy duty Lidco.

ST0634SQ

SQUEEGEE - LIDCO - SQR CORNERS - 4IN

Work tight corners and remove "fingers" during film installation with this unique 4" Lidco with square corners. Its medium flexibility and medium glide make it ideal for medium and heavy weight films.

ST0655

MACTAC FELT SQUEEGEE - 2.75IN X 4IN

The MACTac felt squeegee takes the shape of curved areas, allowing for maximum pressure during squeegeeing.

Card Squeegees

ST0644

**CONTOURED -
YELLOW**

This squeegee is ideal for the complex curves of the most challenging glass.

ST0645

**EASY REACH
GOLD**

This squeegee is great for corners, vent windows, sliders and tight spots on back windows.

ST0645P

**EASY REACH
PLATINUM**

This squeegee is great for corners, vent windows, sliders and tight spots on back windows.

ST0631

LIL' CHIZLER

The Lil' Chizler handles the finer details of window film application, so use it to remove old film, gummy adhesive and "fingers" from film.

ST0643

LITTLE RED FOOT - 6IN

Measuring about 6" (15cm) along the usable edge. The pointed edge of this tool allows access to very tight areas and hard to reach corners.

ST0637

SQUEEGEE - DIAMOND TIP - 5IN

The unique angles of the 5" Diamond Tip fit tight spaces and corners of small window spaces, making it an essential tool for window film installations on French pane and automotive glass.

ST0450

TRI-EDGE ORANGE

These cards provide precision angles and a comfortable grip allowing installers total reach those challenging areas with little effort.

ST0450-P

TRI-EDGE PLUS

The perfect design of the Tri-Edge orange coupled with a heat resistant rubber edge that serves as a water squeegee preventing the need to dry edges with a paper towel.

ST0450-BX

TRI-EDGE X BLUE

The Tri-Edge X Blue is a larger version of the standard Tri-Edge cards with all the durability and quality you're used to.

CARD SQUEEGEES WITH HANDLES

ST0652

●●●

CONQUEROR

Obtain the dual benefits of a squeegee and a hard card with the Conqueror. The flexible squeegee edge is great for cleaning glass, while the hard, varied angles eliminate "fingers" from film and reach into tight corners.

ST0650

●●●●

SIDE SWIPER

The Side Swiper's long and slender design enables you to eliminate "fingers" from the side windows, bottom edges of rear windows and behind speakers during automotive installations.

ST0477

●●●

STROKE DOCTOR

Designed with an ergonomic slip resistant handle, this tool provides excellent leverage for maximum solution removal for those hard to reach areas. Use with replacement blade PN ST0477RB.

ST0567

●●

TITAN

With a Edge Length of 14 3/4 inches overall the Titan Tool allows you to get into those hard to reach back decks. With increased strength at the tip of the tool you can push out more water than ever.

ST0489

●●●●

THE REACH

With its 16 3/4 inch in length and special formulated plastic and rubber, the Reach allows you to maximize solution removal from the lower portion of back windows or windshields, with ease.

ST0488

●●●

SHORT-CUT

The Short-Cut provides a great combination of extraordinary rigidity and grip for removing water in tight areas.

ST0649

●●●

SQUEEGEE - BULL DOZER - AUTO - 15IN X 6IN

This design allows you to get to those hard to reach areas, such as behind speakers, brake lights, low angles and rear windows.

ST0646

●●●●●

SQUEEGEE - SLIM FOOT

The Slim Foot has a slender design that can reach into tighter openings. The no rib squeegee helps reach behind brake lights and has a vinyl grip for secure handling.

ST0654

●●

SLAMMER

Eliminate "fingers" from film, reach into angled corners, pull back rub gaskets and reach into lower portions of rear windows. Its long handle gives you a better grip so you can create more pressure than other card squeegees.

A direct replacement nozzle for PN ST0691 & ST0691SH.

ST0851-72SER

FILMHANDLER - 72IN SLITTER

Minimize waste, improve efficiency and make more money with the popular Film Handler. This slitter makes precise horizontal and vertical cuts on rolls up to 72" in width. You can easily mount the film handler on a wall or ladder in your shop, keeping film clean and off the floor. Many installers take their film handlers on location, just load it in your truck and leave a lasting professional impression with your clients.

ST0868-72

VERTICAL RULER ASSEMBLY 72"

Lost or misplaced your Filmhandler vertical ruler? Here's a replacement at 72" inches in length extended to the near bottom of a standard 6 foot ladder.

ST0862

PHASED OUT!

FILMHANDLER BLADE HOLDER

The replacement film cutter blade holder works with the 72" or 60" film handler, should yours become worn or damaged.

ST0861

FILMHANDLER CUTTER HEAD ASSY

The film cutter assembly is for the 72" or 60" film handler, should yours become worn or damaged.

ST0858-6

FILMHANDLER CUTTER SHIM - 1/4IN - 6IN HUB

Keep film from "telescoping" with a 1/4" thick film cutter shim. It fills the gaps that may exist between the 6" hubs and film, ensuring a correct fit. You can use as many as needed.

ST0859

FILMHANDLER FILM CUTTER SHIM - 1/8IN - 3IN HUB

Keep film from "telescoping" with a 1/8" thick film cutter shim. Use it to fill the gaps that may exist between the 3" hubs and film to ensure a correct fit. You can use as many as needed, or combine a 1/4" thick shim with a 1/8" thick shim.

ST0860

FILMHANDLER REPAIR KIT

Make simple repairs yourself and save money with the film handler repair kit. Each kit contains the most often replaced parts, 2 plastic washers, 2 springs, 2 adjuster knobs and a brake screw. Keep one at your shop or in your company vehicle to ensure continuous usage of your film handler.

ST0863

FILMHANDLER REPLACEMENT BLADES SS - 20-PACK

Filmhandler Replacement Blades to be used in the Filmhandler Cutter Heads.

ST0856-3

FILMHANDLER ROLLER ASSY - 3IN - PAIR

For automotive, architectural and safety films, up to 7 mil.

ST0856-6

FILMHANDLER ROLLER ASSY - 6IN - PAIR

For thicker safety films, ranging from 10 to 14 mil.

ST0744

DIGITAL SOLAR TRANS & POWER METER

This BTU meter evaluates the solar performance of film, gives real-time readings and toggles between power and transmission percentage mode.

ST0743B

DIGITAL UV TRANSMISSION METER

Quickly measure UV power during film sales presentations and impress customers with real time readings and the proof that your products are blocking ultraviolet light.

ST0747

GLASS & AIR SPACE LASER GAUGE W/CASE

Measure glass and air space thickness in sealed, insulated glass units with this durable gauge. Readings are easily taken in either inches or millimeters.

ST0752

TEMPERATURE GUN

A mini Non-Contact Thermometer with a backlit display. It is perfect for verifying the temperature rise of furniture and valuable paintings. Perfect for direct comparison between a filmed and non-filmed window.

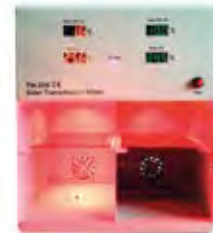

ST0755UEMEA

TINT METER WITH CASE

A window film presentation kit that demonstrates the performance of window film with UV rejection meter, IR rejection meter, Light Transmittance Meter at the same showcase, all in a case kit.

STEX0750HL

HEAT LAMP BOX TEMP SENSOR + 6 PANES OF GLASS

There's no better way to help your customer feel the difference window film makes, than with a heat lamp. Complete with 6 panes of glass (dealer responsible for installing desired film).

STEX0481EN (English) STEX0481FR (Français)

LOW-E CARD

The Low-E CARD+ offers a replaceable battery design that can be used indefinitely. This "+" model will differentiate if the Low-E coating is on Surface 1, Surface 2, or indicate if the glass is uncoated (Clear).

STEX0444

ROCK CHIP SIMULATOR DEMOBOX (GRAVELOMETER)

Convince your customers of Clearshield Pro's unbeatable durability with this compelling demonstration tool. Our Gravelometer mimics road damage by continually propelling metal "rocks" against a painted metal panel (dealer responsible for installing CS Pro).

About Saint-Gobain Solar Gard®

Solar Gard is a world leader in patented technologies for solar control and protective window film; for both residential and commercial buildings and vehicles. As the "Thin Films" division of the global glass and building technology group Saint-Gobain – a company that originated 350 years ago with the Hall of Mirrors in the Palace of Versailles – Solar Gard builds on decades of experience in the development and production of window film. The Solar Gard product range provides solutions for upgrading and improving glass in vehicles, homes and large buildings for the comfort and protection of passengers, residents, visitors and employees. Follow Solar Gard on Facebook, Twitter and Instagram. #SolarGard
