But the essential ingredient is joy.

INDOOR & OUTDOOR

For the artist in you.

In the home interior the boundary between indoors and outdoors is becoming increasingly blurred. The garden has become an extension of the living room, and so it can be handy if the objects that are to be decorated are suitable for both purposes. Use Indoor & Outdoor paint to give furniture a second life and embellish birdhouses, flower pots and other objects. Create your own style!

Create something special!

Talens Art Creation Indoor & Outdoor is a universal satin paint for both inside and outside the house. The paint is suitable for almost all grounds, such as wood, terracotta, plaster, paper, zinc and natural materials like pine cones, pumpkins, etc.

Before starting with Indoor & Outdoor, clean, degrease and dry the surface. Depending on the size of the surface, take a flat brush or a finer brush. A sponge brush or paint roller can also be used for larger surfaces. The drying time of the paint is approx. 30 minutes. After drying for 24 hours the paint is water resistant, and can then be placed outside.

In addition to painting with Indoor & Outdoor, you can also decorate with it using stencils or masks. Use a stencilling brush or a sponge stick. Clean tools immediately with warm water after use.

For the artist
in you.
