TRENDY. UP-TO-DATE. MODERN.

The inspiring NEXT assortment persuades with efficient nice colour shades in semi-gloss trendy appearance and gloss paint in RAL-nuances in 400 ml units. The chosen clear coat is able to change the previous painting into glossy or matt. Application of a clear coat is not absolutely necessary, but it gives the painted object additional protection from weathering and exterior influences.

DUPLI-COLOR NEXT: CONNECTION FOR SUCCESS

DUPLI-COLOR NEXT combines two types of attributes in order to get a very easy performance and convenient spray opportunities:

NEXT TOPIC 1: ALKYD + ACRYL

This new spray paint based on an evolutionary resin technology combines the positive characteristics of alkyd and acrylic based spray paints into one: Alkyd sprays convince with high gloss and maximum flexibility. Acrylic sprays assure with advanced scratch resistance and short drying time. Allows spraying on former painted alkyd and acrylic surfaces!

NEXT TOPIC 2: PRIMER + PAINT

Due to the very flexible coating and increased adhesion power we unify with this new formulation paint and primer in one product. Keeps flexible even after drying.

NEXT TOPIC 3: PLEASANT SMELL + FAST DRYING

The low share of solvents, which are additionally bio-degradable, creates a nearly neutral smell - pleasant and user-friendly. User-friendly also by the short drying time.
