AIRDBIRD C7

Item no: 406037

Right air pressure, made easy.

The Airbird C7 is equipped with a high-performance motor that creates a powerful airflow of 28L/min, up to 11 bar, enabling you to fully fill your car tire in just 6 minutes.

Get the same pressure in your tires every time with the Airbird C7. It's both super fast and more convenient than standard pumps. To attach or detach the hose, simply twist it, thanks to the quick-fix function, making it fast and easy.

The Airbird C7 detects current air pressure automatically and stops when the desired pressure is reached. With 4 presets and a custom mode, it's easy to get the right pressure.

Specification:

Max Air pressure	11 bar – 160 psi
Air flow:	26-28L/m
Built in Li-on battery:	3x2500 mAh / 11.1V / 27.75Wh
Units:	bar, psi, kg / cm ² and kPa
Charging time	3-4 hours
Charge input:	USB-C 5V/2A
Powerbank output:	USB-A 5V/2A
Working time:	25-30 mins
