Statement regarding European regulation REACH (EG) 1907/2006

Dear Customer,

Referring to your question concerning REACH, we can inform you that the products we supply to you are ARTICLES and not SUBSTANCES. This means that our product is made out of several substances, which we do not produce ourselves but for which our suppliers have registered according to REACH.

Therefore ONIRO and our suppliers only use registered substances. Furthermore we also keep a close watch to the REACH-list of SVHC-substances (list which is regularly updated) and react immediately in case there would be a necessity. To the best of our knowledge and based on the available information from raw material suppliers, we have checked your articles against the candidate list of SHVC-substances updated on 19/12/2012 and can declare the articles do not contain any SVHC substances in a concentration > 0,1%.

With kind regards,

Vincent Baas
